## Key Ingredients

### POMEGRANATE OIL

A natural moisturizer that can help hydrate dry, brittle hair that leaves it soft, shiny, and manageable.

### PRACAXI OIL

Helps reduce frizz and creates shine- all thanks to its high fatty acid content.

## How to Use

Spray generously and evenly onto clean, damp hair. Blow dry section by section, ensuring heat activation for optimal results. For best performance, avoid using any other styling products until hair is fully dry.
