*Clinical trials are based on In Vitro lab testing comparing untreated virgin hair samples vs virgin hair samples treated with Heat Styling Protection Spray.

HEAT STYLING PROTECTION SPRAY

Thermal protection on wet and dry hair - perfect for styling on wash day or between washes. Reduces blow-dry time and conditions hair while helping tame frizz and enhance shine. Protégez vos cheveux des températures extrêmes, qu'ils soient secs ou mouillés - la solution idéale pour coiffer les cheveux le jour du shampoing ou entre deux shampoings. Réduit le temps de séchage et revitalise les cheveux pendant que vous domptez les frisottis et améliorez la brillance.
