

O&M SUPER BLONDE 9 HIGH LEVEL LIFT

ABN 45 125 823 305
Level 2, 17 Eveleigh St
Redfern NSW 2016
Australia
T: 1300 724 635

Safety Data Sheet

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Regulation (EU) No. 2015/830

SECTION 1. Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product name **O&M SUPER BLONDE 9 HIGH LEVEL LIFT**

1.2. Relevant identified uses of the substance or mixture and uses advised against

Intended use **Hair bleaching products**

1.3. Details of the supplier of the safety data sheet

Name	SASI GROUP PTY LTD.
Full address	Level 2, Eveleigh St
District and Country	Redfern, NSW 2016 AUSTRALIA
	Tel.: 1300 724 635

e-mail address of the competent person

responsible for the Safety Data Sheet **info@originalmineral.com**

1.4. Emergency telephone number

For urgent inquiries refer to **000**

SECTION 2. Hazards identification

2.1. Classification of the substance or mixture according to (EC) 1272/2008

Hazard classification and indications:

Oxidizing solid, category 3	H272	It can aggravate a fire; combustion.
Acute toxicity, category 4,	H302	Harmful if swallowed
Acute toxicity, category 4,	H332	Harmful if inhaled.
Skin corrosion, category 1B	H314	It causes serious skin burns and serious eye
Serious eye damage,	H318	injuries. Causes serious eye damage
category 1	H335	It can irritate the respiratory tract.
Specific target organ toxicity - single exposure,	H334	May cause allergy or asthma symptoms or
category 3		breathing difficulties if inhaled.
Respiratory sensitization, category 1,	H317	May cause an allergic skin reaction.
Skin sensitization, category 1		

2.2. Label elements

Hazard labeling pursuant to Regulation (EC) 1272/2008 (CLP) and subsequent amendments and adjustments

Hazard pictograms:

ABN 45 125 823 305
Level 2, 17 Eveleigh St
Redfern NSW 2016
Australia
T: 1300 724 635

Warnings: Hazard

Hazard

Statements:

H272	It can aggravate a fire; combustion
H302	Harmful if swallowed
H332	Harmful if inhaled
H314	It causes serious skin burns and serious eye injuries
H335	It can irritate the respiratory tract
H334	May cause allergy or asthma symptoms or breathing difficulties if inhaled
H317	May cause an allergic skin reaction.

Precautionary statements:

P210	Keep away from heat, hot surfaces, sparks, open flames or other sources of ignition. Not smoking
P260	Do not breathe dust / fumes / gases / mist / vapors / aerosols
P220	Keep away from clothing and other combustible materials
P305+P351+P338	IN CASE OF CONTACT WITH EYES: rinse thoroughly for several minutes. Remove any contact lenses if it is easy to do so. Continue to rinse
P303+P361+P353	IN CASE OF CONTACT WITH SKIN (or with hair): take off immediately all contaminated clothing. Rinse the skin [or take a shower]
P280	Wear protective gloves / clothing and protect eyes / face
P310	Immediately call a POISON CENTER / doctor / ...

Contains: Sodium metasilicate, Sodium disilicate, Diammonium peroxodisulphate, Dipotassium peroxodisulphate

2.3. Other hazards

Based on the available data, the product does not contain PBT or vPvB substances in a percentage higher than 0.1%
The product does not contain substances having properties of interference with the endocrine system in a concentration >= 0.1%.
The product mixed with water or damp materials can cause an exothermic reaction, with consequent spontaneous combustion

SECTION 3. Composition, Information on Ingredients

SODIUM SILICATE , AMMONIUM PERSULFATE , POTASSIUM PERSULFATE , SODIUM METASILICATE , CALCIUM CARBONATE , SODIUM STEARATE , CYAMOPSIS TETRAGONOLOBA (GUAR) GUM , TETRASODIUM EDTA , SODIUM LAURYL SULFATE , PARAFFINUM LIQUIDUM (MINERAL OIL) , HYDROLYZED OAT PROTEIN , CI 77499 (IRON OXIDE BLACK) , ARGININE , HELIANTHUS ANNUUS (SUNFLOWER) SEED OIL , CALENDULA OFFICINALIS FLOWER EXTRACT

SECTION 4. First Aid Measures

Emergency and first aid procedures:

4.1 Eye Contact

Check for and remove contact lenses. Immediately flush eyes with running water for at least 15 minutes; if irritation persists, seek medical attention

4.2 Skin Contact

Rinse off with water for at least 15 minutes; if irritation persists, seek medical advice

4.3 Ingestion

In case of ingestion of significant quantities of product, consult the nearest Poison Control Center. Do not give anything if the subject is unconscious, unless under medical supervision

4.4 Inhalation

In case of massive inhalation it can be irritating to the upper respiratory tract; bring the subject to the open air in case of poorly ventilated and particularly saturated with water vapor environments. For persistent symptoms of irritation of the upper airways consult a doctor

ABN 45 125 823 305
Level 2, 17 Eveleigh St
Redfern NSW 2016
Australia
T: 1300 724 635

SECTION 5. Fire Fighting Measures

Flammability:

Inflammable Product

In case of fire, use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. In the case of fire-fighting interventions, use respiratory protective masks and wear safety glasses and gloves to protect eyes and hands.

of

Fire extinguishers: carbon dioxide fire extinguishers, dry chemical fire extinguishers or water

SECTION 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures: Isolate area. Refer to section 7, Handling, for additional precautionary measures. Keep unnecessary and unprotected personnel from entering the area. Spilled material may cause a slipping hazard. Use appropriate safety equipment. For additional information, refer to Section 8, Exposure Controls and Personal Protection. Environmental precautions: Prevent from entering into soil, ditches, sewers, waterways and/or groundwater. See Section 12, Ecological Information. Methods and materials for containment and cleaning up: Contain spilled material if possible. Absorb with materials such as: Dirt. Sand. Sawdust. Collect in suitable and properly labeled containers. Wash the spill site with water. See Section 13, Disposal Considerations, for additional information.

SECTION 7. Handling and Storage

7.1 Handling

Precautions for safe handling: Avoid contact with eyes. Wash thoroughly after handling. Keep container closed. Product shipped/handled hot can cause thermal burns. Spills of these organic materials on hot fibrous insulations may lead to lowering of the autoignition temperatures possibly resulting in spontaneous combustion

7.2 Storage

Conditions for safe storage: Protect from atmospheric moisture. Store in a dry place. Avoid prolonged exposure to heat and air

SECTION 8. Exposure controls / Personal protection

Control parameters

Exposure limits are listed below, if they exist. Exposure limits have not been established for those substances listed in the composition, if any have been disclosed. Exposure controls: Use local exhaust ventilation, or other engineering controls to maintain airborne levels below exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, general ventilation should be sufficient for most operations. Local exhaust ventilation may be necessary for some operations.

Individual protection measures:

Eye/face protection: Use safety glasses (with side shields). When handling hot material: Use chemical goggles. Wear a face-shield which allows use of chemical goggles, or wear a full-face respirator, to protect face and eyes when there is any likelihood of splashes.

Skin/hand protection: Use gloves chemically resistant to this material when prolonged or frequently repeated contact could occur. If hands are cut or scratched, use gloves chemically resistant to this material even for brief exposures. Use gloves with insulation for thermal protection, when needed. Other protection: Wear clean, body-covering clothing. When handling hot material, protect skin from thermal burns. Selection of specific items will depend on the operation.

Respiratory protection: Respiratory protection should be worn when there is a potential to exceed the exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, wear respiratory protection when adverse effects, such as respiratory irritation or discomfort have been experienced, or where indicated by your risk assessment process.

SECTION 9. Physical and Chemical Properties

PARAMETER	SPECIFICATION	ANALYSIS METHOD
Appearance	Powder	Visual
Color	Silver	Visual
Odour	Characteristic	Olfactive
pH (1% Sol.)	10,00 - 11,00	Potentiometric
Solubility	Partially soluble	---
Active oxygen content	2,80 - 3,50	IO-15

The product does not undergo microbiological contamination

ABN 45 125 823 305
Level 2, 17 Eveleigh St
Redfern NSW 2016
Australia
T: 1300 724 635

SECTION 10. Stability and Reactivity

Stability:	Stable under recommended storage conditions Temperatures above 50 ° C
Conditions to avoid:	Product can oxidize at elevated temperatures (50°C)
Incompatibilities (materials to avoid):	Avoid contact with oxidizing materials, strong acids and nickel-containing materials
Hazardous decomposition products:	Decomposition products depend upon temperature, air supply and the presence of other materials. Decomposition products can include hazardous substances

SECTION 11. Toxicological Information

The evaluation of the available data suggests that this product is not toxic and repeated exposures do not cause significant negative effects

SECTION 12. Ecological Information

Use the preparation according to good working standards, avoiding to disperse it in the environment

SECTION 13. Disposal Considerations

The preparation can be classified as hazardous waste

13.1 Disposal of the preparation

Incineration or landfill: Observe the national and regional laws on waste

13.2 Contaminated packaging

Dispose of as above

Section 14. Transport Information

14.1 ONU Number

ADR / RID, IMDG, IATA: 1479

ADR / RID: OXIDIZING SOLID, N.A.S. (Potassium persulfate) MIXTURE

IMDG: OXIDIZING SOLID, N.O.S. (Potassium persulfate) MIXTURE

IATA: OXIDIZING SOLID, N.O.S. (Potassium persulfate) MIXTURE

14.2 Hazard Class

ADR / RID:	Class: 5.1	Label: 5.1		Limited Quantities: 5 kg
IMDG:	Class: 5.1	Label: 5.1		Limited Quantities: 5 kg
IATA:	Class: 5.1	Label: 5.1		

14.3 Packing Group

ADR/ RID, IMDG, IATA: III

14.4 Environmental Hazard

ADR / RID : NO

MDG: NO

IATA: NO

ABN 45 125 823 305

Redfern NSW 2016
Australia
T: 1300 724 635

SECTION 15. Regulatory Information

The preparation complies with the provisions of Law 11/10/1986 n. 713 and subsequent modifications and additions. All components of this product comply with the requirements of the inventory of chemicals allowed in America (TSCA) and those of the European inventory (EINECS)

SECTION 16. Other Information

The information contained therein refers to the knowledge of the product as of the date of this sheet. The product falls into the category of "cosmetics" and the safety assessment is filed at the Corporate Headquarters available to the Competent Authorities, in accordance with Legislative Decree 126/97.

The information contained in this safety data sheet is based on current knowledge and EU laws. The product must not be used for purposes other than those specified. It is the responsibility of the user to comply with the hygiene, safety and environmental protection standards provided for by current laws.
