WE'VE THOUGHT

We've developed a shampoo and conditioner to suit every hair type, manufactured in Australia. Leaving out harsh chemicals, we've replaced them with natural native actives from O&M's birthplace of Australia, sourced from diverse geographical locations from the desert to the ocean.

Our wet line bottles, styling bottles and tubs are made from 100% PCR (Post Consumer Recycled) plastic.

HARD FOR HAIR

Our styling essentials are salon tried and tested. An extension of the O&M brand's ethos, they have been developed to deliver low chemical, everyday clean, luxury hair products for clients.

All O&M Shampoos and Conditioners are especially formulated for coloured hair.

Clean from Sulphates, MIT, Parabens, Triclosan, Propylene Glycol, Phthalates and Gluten. Safe on sensitive skin.
